Steve, Chemours has drafted a letter to be sent to private well owners in "Step out" geographic areas where drinking water well surveys are to be sampled. The sample results are expected to take 4-6 weeks to be analyzed. During this time period, no alternative water will be offered or provided to any of these residences. The draft Chemours letter does

Importance: High

Hi Team - attached from Mike Meloy. I also received a voicemail from him indicating that the companies will be prepared to discuss some provisions of the draft amendment beyond the work provisions this Thursday. I understand that the company participants are only available Thursday morning, and Mike has suggested we could have a conference call instead of a meeting. I

Steve Rahaim is not able to attend, so it will be Chemours reps and Mike that we meet with this Thursday. I'm interested to hear what Karen, Roger, Heather and Charlie think about the attachments and how much additional discussion is warranted on those pieces. Thanks-Jacquie

Subject: Chemours - Washington Works - Proposed Scope of Work for Supplemental Sampling Activities

Jacquie -

Consistent with our discussions on Thursday, I am attaching a scope of work describing supplemental sampling activities that Chemours is preparing to undertake. I hope that we can discuss the scope of work as part of the meeting or conference call that is slated to occur on Thursday morning.

Please let me know if you have any questions.

Best regards.

Michael
